Customisable modular lounges

GATHER AROUND & GATHER AROUND CLOSER MODULAR LOUNGE; GATHER AROUND ME TOO

The epitome of customisable functionality, the Gather Around design is based on four standard seat modules, straight, convex, concave, 90 degree corner and three standard back heights. Gather Around Closer has smaller compact modules for when space is premium. Gather Around Me Too is a two seat lounge with high sides and top canopy. Ideal for creating face to face acoustic hubs.

Configurations with high backs divide and separate open plan spaces creating acoustic hubs for meetings and presentations. Medium height backs provide good acoustics and allow people to gather around a rear mounted table and still engage with those seated inside. The low back option is all engaging and welcoming.

ENVIRONMENTALLY SUSTAINABLE

Swiss Design pioneered many of the industry's sustainable practices. Water based gludes, GECA approved foams and FSC timbers which are allstandard in every piece manufactured in our factories
